What is a Neighbourhood Development Plan (NDP) ?

A Neighbourhood Development Plan (made legal under the Localism Act 2011) is a new way for local people to influence the planning and development of the area in which they live and work. Ours will cover the next fifteen years to align with TVBC's Local Plan.

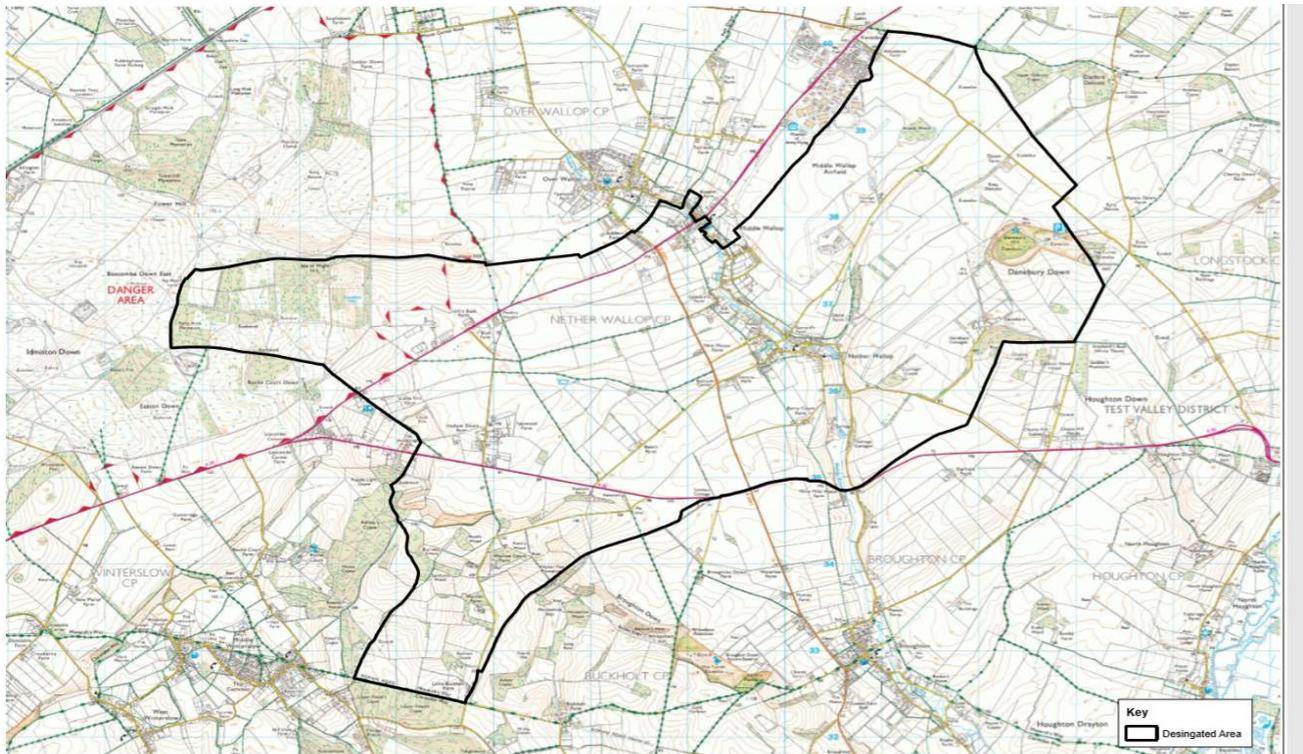

Once approved, our plan will have legal force in setting out what development is acceptable in our Parish and for what reasons. Developers and local authority planners will have to take notice of it. Without a plan, we will have little control over any development that takes place.

The neighbourhood plan survey will be split into various sections and your views will be sought on each, whether or not they directly affect you.

- * GENERAL QUESTIONS
- * HOUSING NEEDS AND FUTURE REQUIREMENTS
- * GREEN SPACES AND CONSERVATION AREAS
- * TRANSPORTATION
- * INFRASTRUCTURE
- * BUSINESS AND LOCAL ECONOMY

The survey is the first step in a formal process. The information will be collated and the Steering Group will use the responses as the basis for a draft plan. The final draft is examined by an independent inspector and a referendum has to be held on whether to adopt the final plan.

As decided at the Parish Council meeting on Monday 10th June, the NDP Steering Group will be a subcommittee of the Parish Council and will hold meetings in public, have agendas and minutes, and members will be subject to the NW Parish Council code of conduct to ensure full transparency and openness in the community.

What is a "Green Space" ?

Also known as LAGS or Local Areas of Green Spaces. A green space is an area of local importance for reason of setting or nature conservation.

The National Planning Policy Framework (NPPF) introduced the concept of Local Green Space designation as a way to provide protection for green areas that are demonstrably special and hold a particular significance for local communities.

In addition, Test Valley Borough Council's Green Infrastructure Strategy July 2014 and which forms part of the Local Plan evidence base, sets out how local communities can protect and enhance green infrastructure including through policies set out in Neighbourhood Plans.

With regard to the National Planning Policy Framework it's designation should only be used where land is;

- a Not extensive
- b Local in character and reasonably close to the community
- c Where it is demonstrably special e.g.
 - i. for it's beauty
 - ii. historic significance
 - iii. recreational value
 - iv. tranquillity
 - v. richness of wildlife

PLEASE BEAR THIS DEFINITION IN MIND AS YOU WORK THROUGH THE QUESTIONNAIRE.
