

## Pavilion Roof- Costs to replace old onduline roof October 2022

A member of the public has kindly offered to replace the onduline roofing of the pavilion. Parts of the roof are bowing quite considerably. Because of this, I think this work should be done as soon as possible.

I have looked up prices for the materials required and have concluded that Wickes is probably the best option as they stock all the materials we need. There are places that sell the onduline more cheaply, so we could save some money by 'shopping around'.

### **WICKES**

	Quantity	Size	Unit Price	Total
