'Focusing on Consequences'

Questions 7, 18 & 29 asked respondents to advise on accidents and near misses.

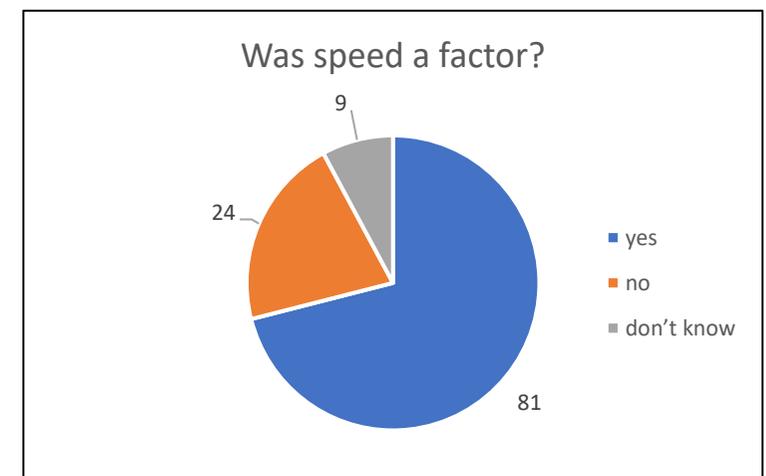

114 incidents were reported; 99 near misses and 15 accidents.

By a sizeable proportion these incidents were when in a Car. However as can be seen a large proportion were also when people were walking within the villages. Even though the majority of incidents were near misses the impact on people is still unpleasant.

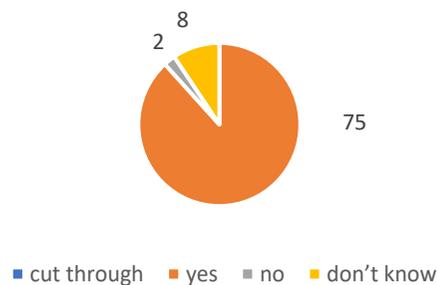

As can be seen from the chart below, even though 44 of the incidents did not result in any harm or damage, there were 53 reports of people being upset or shaken, 17 of these incidents involved children being affected.

Looking at the three serious incidents:
 Nearly killed: 2 people + 5 dogs.
 Killed: 1 dog, 6 cats, 2 ducks
 Vehicle damage: 2 write-offs.
 (extra animals added by WG data.)

We have to consider that all of these incidents happened when residents were close to home and as can be seen from the chart on the right, the majority involved speed as a contributing factor.

People reporting incidents, asked if the villages are used as a cut through:

Lastly, looking purely at the respondents who reported either an Accident or Near miss, the 114 incidents were reported by 85 people. (some had multiple incidents to report.). **Of these 85 people**, their response to the question - *Do you think the villages are used as "cut throughs" by non-residents?* Showed 75 people believed this to be true compared to 2 people who thought it wasn't true and 8 people who didn't know.

39. Please tell us how strongly you feel about speeding, activities. (Qs. 39-41.)

Over Wallop:

- o 86% of those in Over Wallop and 60% of those in Nether Wallop were Very concerned or concerned ("VCoC") about speeding in Over Wallop village Area
- o 100% of those in Over Wallop who had been in an accident (6 people) were VCoC about speeding in Over Wallop; and 91% of those who had been in a near miss (45 people)
- o Even amongst the 36 of those in Over Wallop who had not been involved in an accident or near miss, 78% were VCoC

Nether Wallop

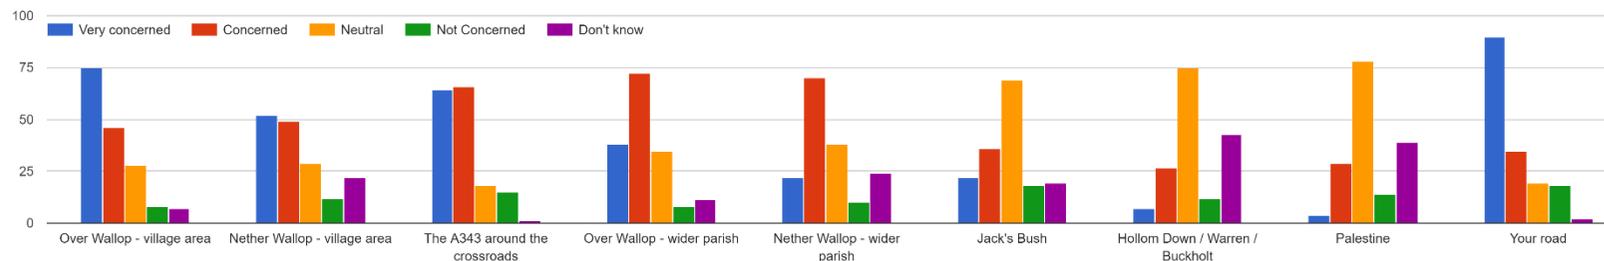

- o 51% of those in Over Wallop and 74% of those in Nether Wallop were VCoC about speeding in Nether Wallop village Area
- o 83% of those in Nether Wallop who had been in an accident (6 people) were VCoC about speeding in Nether Wallop; and 82% of those who had been in a near miss (28 people)
- o Even amongst the 43 of those in Nether Wallop who had not been involved in an accident or near miss, 67% were VCoC (i.e. two thirds)

Crossroads

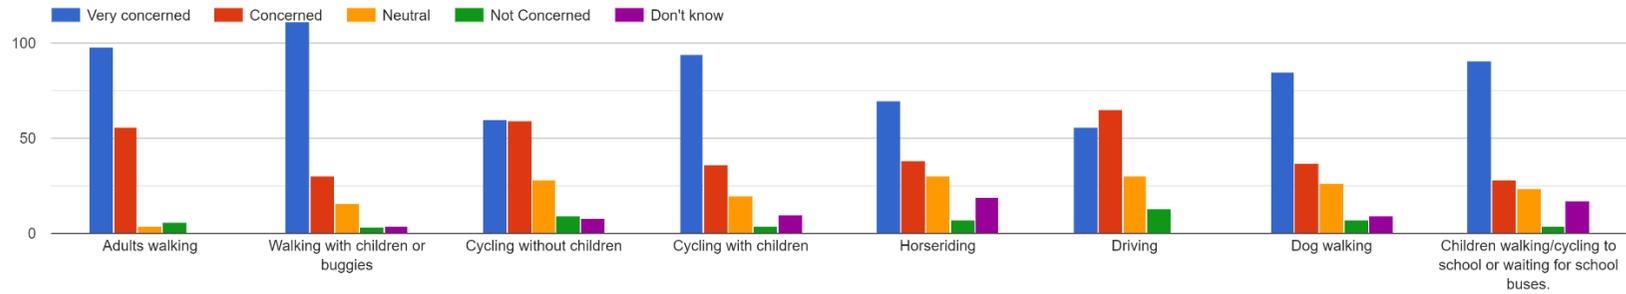

- o 84% of those in Over Wallop and 74% of those in Nether Wallop were VCoC about speeding at the A343/crossroads
- o 67% of those who had been in an accident (12 people) were VCoC about speeding at the crossroads; and 82% of those who had been in a near miss (73 people)
- o Even amongst the 79 of those who had not been involved in an accident or near miss, 78% were VCoC

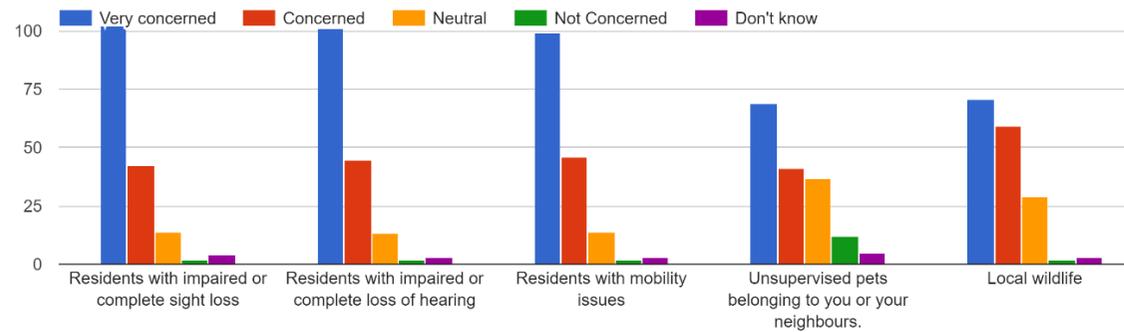

Please tell us how strongly you feel about speeding in the areas below.

What personal concerns do you have relating to speeding vehicles and participating in the below activities?

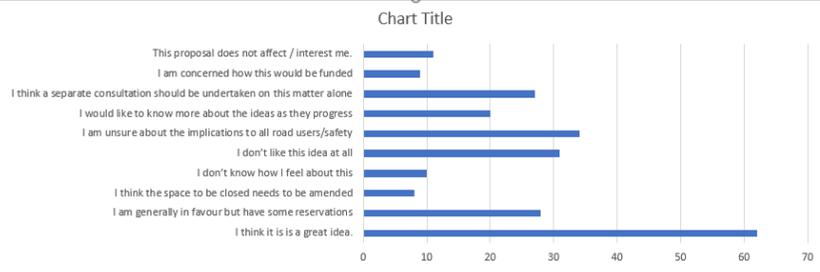

Please tell us how strongly you feel about the effect of speeding vehicles on the below:

The conclusions seem to be:

- Of those who responded to the survey, the vast majority are worried about speeding in their areas (86% in Over Wallop and 74% in Nether Wallop)
- These concerns are particularly so amongst those who have seen accidents or near misses, but, even amongst those who have not, at least two thirds are concerned or very concerned (78% in Over Wallop and 67% in Nether Wallop)
- The concerns over the crossroads were shared, broadly matching the level of concern with speeding inside the village.

42. How do you feel about the proposal to consider closing PART of the road by the War Memorial permanently? (tick all that apply please)

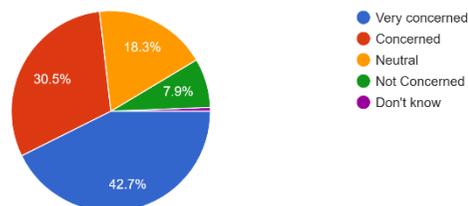

To be analysed further by OWPC.

I think it is a great idea.	62
I am generally in favour but have some reservations	28
I think the space to be closed needs to be amended	8
I don't know how I feel about this	10
I don't like this idea at all	31
I am unsure about the implications to all road users/safety	34
I would like to know more about the ideas as they progress	20
I think a separate consultation should be undertaken on this matter alone	27
I am concerned how this would be funded	9
This proposal does not affect / interest me.	11

43. Please tell us how concerned you are regarding VOLUME OF TRAFFIC travelling through the villages.

Please tell us how concerned you are regarding VOLUME OF TRAFFIC travelling through the villages.
